

A.I. CITO THAWS

A thoroughly field-tested and proven thaw unit for properly thawing semen at a constant rate of 95°-98° F through correct, accurate, and sensitive electronic control. Made of tough ABS non corrosive plastic, the unit will take a lot of abuse, but at the same time protect all of its working elements. Indicator lights show when the unit is ready to use, and when it is working and maintaining water bath at proper temperature. Complete with 6 ft. power cords and dual voltage power supply, lift out basket and thaw monitor. Available in standard model with Thaw Monitor or Digital Monitor.

THAW MONITOR
It is essential if you use the warm water thaw method. Easy to use, hold by corner and run water down the entire thermometer, adjusting water, until number is green within the safe zone.

CITO STRAW CUTTER

AI-CUTTER

A push of a button cuts off the proper length of the sealed end of the semen straw. Made from nylon and stainless steel. Easy to disassemble to sanitize without tools.

CITO TWEEZERS

Designed for low heat transfer the 6-1/4" tweezer is for quick and easy removal of straws from canisters, and other handling of straws. Shaped, specially grooved tips grip and surround the straw, yet do not crush it.
