## TO USE

1. Fill Cito Thaw with warm clean tap water.
3. Agitate the water by taking the basket and moving it up and down several times to assure water temperature is consistent through the water bath.
4. Place THAW MONITOR in water for a minimum of 10 seconds. See instructions on back of THAW MONITOR to determine temperature of water bath.
5. To achieve proper temperature, mix warm and cold water.
6. With the correct water temperature you are now ready to thaw semen in your Cito Thaw.
